3.35 pm	Discussion/close

Date: Thursday 16 February Time: 1.30pm to 4.00pm (AEDT)

In this session we will focus on food safety within the Australian dairy industry. Australia is unique in regulating each step along the supply chain to ensure the end product is of the highest quality standard. We will look at each of these stages in the supply chain and hear from experts on how each is regulated and the new technology and systems that are helping us to continually improve.
