

Number of cows	Week 1 Commencing	/	/	Weekly total	Week 2 Commencing	/	/	Weekly total	Week 3 Commencing	/	/	Weekly total	Week 4 Commencing	/	/	Weekly total
Number of cows calved																
Milk fever																
Retained placenta/RFMs																
Assisted calvings																
Mastitis																
Ketosis																
Grass tetany																
Endometritis/vaginal discharge																
Lameness																
Ruminal acidosis																
Displaced abomasums (LDAs/RDAs)																
Culled or died in first 60 days of lactation																
Milk fat %																
Milk protein %																
Average BMCC
